

Results

The Educational Organization Management System developed using the **ServiceNow Platform** successfully automates academic and administrative processes. The implemented system provides centralized management for students, faculty members, and institutional services through workflow automation and digital service handling.

The results demonstrate improved efficiency, transparency, and reduced manual workload within the educational organization.

Salesforce table

This screenshot shows a ServiceNow interface for a 'Salesforce New record' table. The top navigation bar includes 'servicenow', 'All', 'Favorites', 'History', 'Workspaces', 'Tables', 'Search', and user profile icons. The main form contains the following fields:
